I am Bishop of Long Island. The diocese was organ ired in 1868. I first learned that ground had been broken for a church in memory of A. T. Stewart in the summer of 1870. THE COURTS.

DECIDED AGAINST JAY GOULD. JUDGMENT FOR THE PLAINTIFF IN THE SUIT

OF THE MILMO BANK. demurrers to the complaint interposed by the defendants in the suit of Eugene Kelly, as assignee of a claim of the Milmo National Bank of Laredo, Texas, against Jay Gould in Mexican railroad schemes, have been overruled by Justice O'Brien in the Supreme Court, Special Term, and judgment has been given for

the plaintiff with leave to the defendants to answer.

It is alleged in the complaint that the bank on September 24, 1883, cashed two drafts for an aggregate of \$32,354 11, which the chief engineer of the Mexican, Oriental, International and Interoceanic Railroad Company had been authorized by the defendants to drawton J. H. Work as the pretended secretary of the se-called Southwest Construction Company for work done under a fraudulent arrangement. By this arrangement the defendants, it is claimed, had induced the contractors who had charge of the work to make an arrangement with Work, on the false representation that he was the secretary of the Construction Company and that plenty of money had been of tained in Europe for the enterprise, under which agreement they graded 270 miles of the line and thus saved the concession. By this concession, granted by the Mexican Government, the two lines of railroad known respectively as Gould's line and General Grant's line, had been consolidated on condition that work should

be resumed at a specified date.

The Judge says: "It would be, indeed, extraordi-The Judge says: "It would be indeed, extraordinary if persons could arrange a scheme from which all were to be benefited and after inducing a bank (relying on fraudulent acts and representations) to part with money, they could shield themselves from liability behind a worthless corporation, which they had wrongfully and without authority used for the purpose of perpetrating the wrong."

MISS LAWRENCE ANXIOUS TO PAY.

SHE ASKS THE SUPREME COURT TO HELP HED SATISFY A BUTCHER AND A GROCERY FIRM.

Among other things which came into the possession of fifteen summers, at school in Dresden—at the death of her father, Albert Gallatin Lawrence, were a butcher's and a grocers' bill which he had failed to When her grandfather, William Beach Lawrence, at one time Governor of Rhode Island, died he left to his son Albert the income of one-fifth of his large estate, making a provision that at the death of the son so much of the income as was necessary should be applied year by year to the maintenance and education of Esther during her minority, and that the accumulated income above the amount thus appropriated should be paid to her when she attained her mafority. The income thus secured to her amounts to about \$9,000 a year. There is now in the hands of her guardian, J. G. K. Lawrence, \$2,800 of the accumulated income uninvested. The amount expended annually for her support and schooling is \$2,500. All these facts and more are set forth in a petition

signed by her at Dresden on May 30, which has been presented to Justice Andrews, of the Supreme Court, in which she asks that a sufficient amount be set apart from this accumulated fund to pay the bills of the butcher and the grocers. She says that the bills were in a large measure contracted for her support while living with her father at Newport. To the butcher, William S. Lawton, \$348 is due, and to the grocers, Cornell & Sons, an amount which she is not able to state. Her father died leaving no estate. The butcher and the grocers are urgent in their demands for payment, and she is antious to satisfy their just demands. Justice Andrews yesterday referred the matter to William C. Holbrook.

A WIFE DESERTED AND HER CHILD STOLEN. Julius Goteryahn, a German shoemaker, is wanted by he police for bigamy and for abducting his own child. Some six years age, it is alleged, Julius married Caroline Kotz in this city, but soon after she discovered that he had a wife still living in Germany. A separation followed, and Julius returned to the Fatheriand. Later on he came back to America, and during the voyage across the ocean met Bertha Brudenbuch, age twenty. Shertly after their arrival here they went to Georgis and got married. Julius subsequently deserted her and their two-year-old daughter, Annie. Julius came to New-York and renewed his former relations as husband to Caroline Kotz. Portha came home to her father, William Endewsch, of New-York and renewed his former relations as husband to Caroline Kotz. Bertha came home to her father, William Brudenbach, of No. 525 East Sixteenth-st. About two weeks ago Julius, who had opened a shor-

shop in Spring-st., learned that Bertha had fallen heit 100,000 marks from the estate of her mother in Gerto 100,000 marks from the easier of her no with him to many. He then tried to get her to go with him to Germany to collect the money, but she was prevented from doing so by her father and the family physician, said Bertha was dying from consumption and could not stand the voyage. This enraged Geteryahn so much that last Menday evening he managed to abduct the child Annie. The poor mother was nearly distracted, and in the hope of finally recovering her little one will swear out a warrant against Goteryahn, charging him with bigamy. She thinks he has gone to Cincinnati. As yet, the police have no clew to either Goteryahn or the

YACHTS WANT A STIFF BREEZE TO.DAY. THE PRINCIPAL CONTESTANTS IN THE NEW. YORK CLUB'S REGATTA.

To-day will be sailed the annual regatta of the New York Yacht Club. The entries make it by long odds the most important yacht race yet sailed this season. The start will be made between buoy No. 15 and the Flagship Electra, which will be anchored ene-quarter of a mile east of the buoy, thence to and around buoy No. 16, passing to the west and south of it, thence to buoy No. 8 1-2, passing south of it and north of buoy No. 5 off the point of Sandy Hook, thence to and around Sandy Hook Lightship, returning over the same course. It is a good course, and with a stiff and steady breeze will test the speed of the yachts at every point of sailing. Yachtsmen will find the race an exceedingly interesting one, and those who regard it merely as a spectacle will be well rewarded for going to see it. The steamer Taurus will convey club members and guests over the course. She will leave Pier No. 1, North River, at 10 a m. general public will find accommodation on the steamer Cepheus, which will leave West Twenty-third-st. at :45, and Pier No. 1 at 10:15 a. m. Commodore Gerry's fine steam yacht Electra, the flagship of the fleet, will be the judge's boat. Those having business on board of her are expected to be at the foot of East Twenty-sixth-st., at 8:45 a m. "sharp,"

Of first-class schooners there are three entries, the Dauntless, the Ramona and the Palmer. They are old boats, but many changes have been made in them since last season. The Palmer has been transformed into a keel beat; the Ramona, formerly the Resolute has had a new stern and a lead keel put on, and the Dauntless has had some tremendously long racing topmasts hoisted.

The third-class schooners will attract most interest. The entries are, Sea Fox, Sachem, Troubadour, Miranda and Grayling. The Marguerite will also race in this class, although entered in the fourth-class. Between them they will make a magnificent race The Katrina, Shamrock, Bedouin, Fanny, and Stranger will compete among the third-class sloops and cutters. It will be a battle royal between the Katrin and Shamrock. In the fourth-class are the Hilde garde, Whileaway and Thistie; in the fifth, the Gaviota and Concord, and in the sixth the Adelaide, Regina and Iscuit.

and Isenit.

Edward Burgess will witness the race from the deck of some boat of his own design, probably the Marguerite. He overhauled her yesterday. It has been found necessary to take two or three tons of lead out of her keel to get her to trim right. As a yacht designer, of course, Mr. Burgess always wishes his last design to win. END OF THE BICYCLE MEET.

Baltimore, June 20.—The pinth annual meet of the League of American Wheelmen came to an end to-day with a trip down the Chesapeake, followed by a supper at a Bayside resort. A LIVELY DEBATE ON THE SUNDAY CIVIL BILL -LITTLE BUSINESS DONE Washington, June 20 .- Mr. EDMUNDS, from the Committee on Foreign Affairs, reported back adverse ly the bill introduced by Mr. FARWELL directing the President to make proclamation prohibiting the importation of products of foreign States in certain cases.

Mr. FRYE presented the petition of the "Constitutional Defence Association of America" against the ratification of the Fisheries Treaty. The Senate took up the private pension bills on the calendar and passed all of them, ninety-two in number, including one giving \$12 a month to each of the two daughters of Major Abner Morgan, of the Revolutionary Army, and one for a soldier of the War of 1812.

In the House debate on the Sundry Civil Appropriation bill to-day, in the item relating to special agents, Mr. McSHANE, of Nebraska, favored a reduction of the appropriation from \$100,000 to \$50,000. He said he wanted less money placed in the hands of special agents to procure false affidavits by bribery. HOLMAN, of Indiana, opposed the reduction of the appropriation, and Mr. WEAVER, of Iowa, defended General Sparks's administration of the Land Office. Mr. LAIRD, in an attack on Mr. Sparks, declared that he had suspended honest entries upon affidavits procured by subordination of perjury, and in the end

had been himself suspended.

Various amendments to increase and decrease the appropriation were rejected, and the paragraph remained unchanged.

A long debate ensued upon statements by Mr. E.

B. TAYLOR, of Ohio, and Mr. ROWELL, of Illinois, that the Democratic party had initiated the policy of granting lands to railroads. Mr. WEAVER declared that the Republican party had always defended the railroads, and had followed that policy in making Mr. Thurston temporary chairman of the Chicago Conven-

Thurston temporary chairman of the Chicago Convention. If they would nominate Thurston and Depew
they would sweep the country. (Democratic applause). Mr. ATKINSON, of Pennsylvania, said that
more Democrats than Republicans voted for the Northern Pacific Railroad grant, and, being challenged by
the other side, he named Daniel W. Voorhees, and Mr.
BROWNE, of Indiana, named Mr. Hendricks.

On motion of Mr. McADOO, of New-Jersey, an item
was inserted appropriating \$20,000 for a Post Office
Building at Hoboken, N. J. The evening session was
devoted to the consideration of bridge bills.

SENATOR FRYE ON THE RIVER AND HARBOR

Washington, June 20.—Senator Frye submitted to-day his report on the River and Harbor bill. It says the bill exceeds by \$2,800,000 the largest appropriation ever made in a River and Harbor bill, but as no bill was passed last session and none is likely pass in the short session following the Presiden tial election this bill practically represents a period of three years on a basis of seven millions a year, considerably less than the average expenditure of recent years. There is not one of the great maritime nations which does not expend more in proportion to its harbors and sea coast than we do. states that the domestic produce moved and exchanged in this country through the medium of the inland water ways amounts to twenty-five or thirty thousand million dollars annually and that the wonderful increase in internal commerce is due to the expenditures in water way improvements.

The members meet once a week and dis cuss questions in a peaceful way like law-abiding citizens They believe in the sovereignty of the individual, and maintain that government as now constituted is founded on ignorance. HE THREW A BEICK AT THE BOYS The workmen in the brick yard at the foot of West Thirty-seventh-st. are much annoyed by a crowd of small boys. On Tunsday John Murphy, ago twenty-three, of No. 313 East Thirty-eighth-st., one of the employes, became so enraged at them that he throw half a brick among them. The missile struck Charles Manunka, age nine, of No. 564 First-ave., on the head, causing a fracture of the skull. He was removed to Bellevue Hespital. At the Yorkville Police Court yesterday Justice White committed Murphy without ball to await the result of the child's injuries.

PRIENDS OF ANTI-POVERTY ON A PICNIC. The Anti-Poverty Society held its second annual excursion yesterday. For several months the attendance at the weekly meetings has been growing less; and so on this occasion an effort was made to revive something like the old-time enthusiasm. The effort succeeded. The big steamer Grand Republic carried some 2,000 persons to Roton Point, Conn., where dinner was caten. After that there were athletic sports and speeches. Among the orators were Father McGlynn, John McMackin, John J. Bealin, Gaybert Barnes, and Michael Clarke.

The Princess Ann O'Delia's consort, "General" Joseph H. Diss Debar, was transferred from the Tombs Prison to H. The results of the inquest and autopsy were placed before the jury, and Policeman William O'Hara told how he had arrested Giblin. Other testimony of little importance was given, and the prosecution rested.

EXONERATED BY A VOTE OF THIRTEEN TO SEVEN IN THE BOARD OF EDUCATION.

The Board of Education yesterday adapted the majority report of the special committee which was appointed to investigate the charges against Superintendent Jasper. The report had been laid over with a minority report at the last meeting and the discussion of it called out much strong feeling and personality from some of the members. A resolution appended to the majority report called for the discharge of the committee. Mr. Webb offered as a substitute a resolution that the Superintendent had failed to perform his duties in the investigation of the case of Miss Masson. Miss Mason.

Mr. Sprague thought the committee had presented a

whitewashing report.

Mr. Tamsen said that the city superintendent had shewn far more discretion than his opponents, who in their desire to defeat him had precipitated a scandal on the school system and had shown no regard for a woman's Mr. Webb resented the statements of Commissioner

Tamsen. "I hope he will give names," Mr. Webb added, and not make nasty, mean insinuations."

THE TRADE IN CHICAGO.

Chicage, June 20 (Special) .- It is said that the crowd in attendance at the convention has se far exceeded the expectations of the railroads that locomotives from every branch of the service have been called upon to haul passengers. This was the explanation given when the receipts of corn, 333 cars. were found to be more than 50 under the expectawere found to be more than 50 under the expectations. The July option, which for a moment sold at 511-2, soon sold off; the decline was hastened by the estimates sent in for Thursday and by weakness in the other pits, 410 cars being the estimate for Thursday. The crowd has now got into a bearish mood, indinenced mainly by the big stocks. July opened at 503-8 cents, sold between 511-2 and 405-8 and closed at the bottom. The year option dropped from 441-4 to 43 cents. There was rain shown by the weather map quite generally throughout the Southwest. There was a decrease of wheat on passage of 1,200,000 bushels, the largest in many weeks, and the seaboard clearances, 101,000 bushels, were a little more encouraging. The July option opened at 817-8, sold between 811-8-8811-4 and 821-2 and closed at the bottom. August kept at 1-2 ceat premium and December at 3 cents premium. Very moderate sales of lard by an English house demoralized the provision bulls and caused a decline all around. There were more hogs at the yard than expected and prices there were lower.
